PRESIDENT'S BIRTHDAY.

Received Many Congratulations on 55th WASHINGTON, Jan. 20,-The Pres. dent yesterday celebrated his 55th birthday, having been born at Niles, O., January 29, 1842. The day was a rather quiet one, for the President announced that he did not intend to receive any visitors, desiring to rest after his trip trip to New York.

the to New York.

Very few persons knew that it was the President's birthday, although the officials about the white house were aware of it, because for the last few days he has received many telegrams anticipatory to the event. Many congratulations came from persons whose birthdays are also celebrated to-day, but who do not know the President personally.

when the President arose yesterday morning he found the breakfast table decorated with flowers and an immense basket of beautiful roses from the conservatory adorned his desk. The President took a drive in the evening and last night he attended the cabinet diner given in his honor by Postmaster General agry.

ar given in his non-general cary.

At 11 p. in, the California delegation.
In congress called upon him and he touched the button that opened the fair-celebrating the gold mining jubilee.
The President received a number of telegrams from friends in. Ohio, New York and elsewhere. He is in remarkd health, except that he has slightly from the cold he

police are actively engaged in run-down several clews. It is believed crime was committed last Sunday right, and that the bodies have been in the house ever since. The woman was a widew of good repute, though quite poor. The officers refuse to give the names of the persons under arrest.

IMPORTANT LIBEL TRIAL 'A Case Where a Newspaper's Criticism

Was Upheld. ST. LOUIS, Jan. 20.-Yesterday

jury in the libel suit of Charles B. Stark against the Republic rendered a verdict in favor of the defendant. Stark was the attorney of the old school board, which was legislated out of ex-Istence last winter. The Republic charged that the board's attorney was at the head of a corrupt lobby at Jet-ferson City opposing the reform meas-ure.

In his instructions to the jury Judge Spencer clearly last down the doctrine that, when a public corporation or pub-lic body employs an agent to influence

MILLVILLE, N. J., Jan. 30 .- The ru-

mor that an English syndicate intends to buy the glass factories in South Jersey is confirmed by several managers sey is confirmed by several managers of plants in this section. Representatives of the syndicate are now inspecting the different works, and it is said that they are making a deal with Whitall. Tatum & Co., one of the largest glass manufacturers in the country. Their intention is to close the smaller factories and increase the output of the larger eas. Their main office will be in New York.

INTEREST ON B. & O. BONDS.

EALTIMORE, Jan. 30,-The receivers of the Baltimore & Ohio Railroad Company will pay the coupons due February 1, 1898, from the Baltimore & Ohlo company consolidated mortgage bonds in the hands of the public. These coupons amount to \$293.09. They will not pay the coupons due February 1 from the Baitimere & Ohlo P. & C. bonds of 18%, but Speyer & Co., of New York, advertise that they will buy such of these coupons as may be presented to them.

DIAZ TO VISIT THIS COUNTRY. MEXICO CITY, Jan. 30.—President Diaz is preparing to make a visit to the United States. Ills Hingrary is dot yet Completed States. His ilinerary is not yet completed, but he will visit, it is understood, all the prinicpal cities, including St. Louis, Chicago, New York, Washington and the Pacific coast.

A train of three magnificent cars, ordered a month ago from the Pullman company, has reached this city, and another will follow, shortly. The vice president will assume the duties of chief, executive during the President's ab-

executive during the Presider

58 c per ounce; government assay bars %c higher at 57%c; Mexican dollars %c higher bid at 45%c, asking price un-

changed at 46½c.

At the opening of the stock market to-day it looked as though the orders accumulated by commssion houses over night were to sell in order to take over night were to sell in order to take profits. First sales were very general at a fraction below last night's price, and 2,000 shares of New York Central thrown on the market drove the price of that stock down % per cent. The market steadled almost immediately, and recovered gradually to above last level, net gains being, however very unequal. Lake Shore was most conspicuous in its movements, rising 64, points to 19449 on the reported plan to exchange \$200 of New York Central 3½ per cent debentures bonds for each \$100 of Lake Shore stock. New York Central ultimately tended strongly upward, after wavering somewhat. There

from Lake Shore surplus earnings, which, it was rumored, would be ap-plied to a sinking fund for the bonds issued in payment. Another strong elewhich advanced over a point on reports that a plan for refunding obligations at a lower rate of interest was under at a lower rate of interest was under consideration. This stock was leader of the market in point of activity. North-ern Pacific preferred continued to ad-vance on well defined rumors that an additional dividend is in prospect. Denver and Rio Grande preferred, Northwest and a number of less promi-nent stocks showed notable gains. These elements of strength served to sustain the market, and to counteract some tendency to sluggishness and heaviness in the general list, so that net gains were achieved in most stocks, though they were small outside the spe-cial cases mentioned. Quotations from

cial cases mentioned. Quotations from London this morning showed some de-pression in the market for Americans there, which was attributed to the apprehension awakened in the mind on yesterdas's vote on the Teller resolution in the senate. The week opened with a continued tendency toopened with a continued tendency to-wards a reaction, and the hesitating tone in the early dealings on Monday gave way to a very positive weakness upon the announcement that the Maine had been ordered to Havana. This sharp decline seemed to clear the spec-

information of a plan in contemplation much the general strength of the mar-ket was due to the influence of this derbilt group was made evident on Fri day, when a realizing movement in New York Central left the market with-

week's statement of railroad earnings have been, as a rule, very favorable, notably Northern Pacific and Pensylvania, publishedto-day, the latter being regarded as an especially reliable index of the country's railroad business. All of the securities of the Kansas & Texas company have been very strong during the week on the improved financial condition shonw by reports for the year thus far.

lie body employs an agent to influence legislation, it transcends its powers and commits an unlawful act, which justifies the criticism that it and its agents are engaged in corrupt lobbying.

The Republic had refused to compromise or take advantage of technical tactics, but maintained that it had told the truth and was justified in so doing. JERSEY GLASS COMBINE.

thus far. The bull operators made use of reports in anticipation of the President's speech on Thursday night, and some of speech on Thursday night, and some of Friday's selling was due to a realizing upon the delivery of the speech. The market's advance was helped very maupon the delivery of the speech. The market's advance was helped very materially by the very large buying for London acocunt on Tuesday and Wednesday, but the almost equally heavy selling on the succeeding days from the same source made it evident that the speculation was only for a short turn. The tone of the mony market has worked easier, notwithstanding the withdrawal from the banks of the first ten per cent installment of the government's deposit of Union Pacific payments. It is evident also that the increasing abundance of money and ease of rates' is all that prevents larger imports of gold, as the supply of exchange is constantly increasing, and rates for money in London and Berlin are again hardening. Net gains in the general list extended up to 3 points and in the specialities to 14½ points in Lake Shore and 6½ points in New York Central. Kansas & Texas Pacific preferred, the Chicago and Eastern Illinois stocks, Rock Island, Northern Pacific preferred and Northwest also made heavy gains. With sales of bonds for

cific preferred and Northwest also made heavy gains. With sales of bonds for the week of a par value of over \$25,-600,090, business in that department of the exchange exceeds all previous records, both for the week and for a month on the business thus far in the

The Financier says: The statement of

The extreme gains have been

The Financier says: The statement of the associated banks for the week ending January 29, while it does not show the enormous increases of the previous week, indicates that money is still flowing heavily to this centre. The gain in cash for the week was \$6,337,-009, of which \$2,500,000 was specie. The latter represents western recipis to a large extent, following Australian remittances. The increase in deposits amounting to \$3,011,400, tied up over \$2,000,000 of the cash received; so that

the surplus reserve is only \$4,334,250 heavier than one week ago. There is no doubt that the expansion of \$2,395. no doubt that the expansion of \$2.35,000 in loans reflects legitimate mercantile, and stock exchange transactions, instead of special operations and technical manipulations, such as have been in evidence since the Union Pacific sale. The loan increase is scattered through a larger list of banks than usual, and the totals are largify due to gains made by the National Union, the Western National and the National Bank of the Republic. It is worthy of note that the Union Pacific deal reduces its loan four millions, following the retirement of over due currency sixes held by the treasury on its account against deposits. All the special depository banks paid to the treasury ten per cent of their holdings last week; otherwise the gain in cash would have been heavier. As it is, the deposit tiems of the banks doing the largest business with Interior banks 00 in loans reflects legitimate mercan

show the highest percentage of gains.
The future, in view of the continued piling up of idl money in New York, The future, in view of the continued pilling up of idl money in New York, appears to favor easier money. It should not be forgotten, however, that considerable of the surplus cash in banks belongs to the treasury, and is subject to its withdrawal. The commercial demands are also heavier, and whereas the loans of the banks during January, 1897, remained stationary, while the surplus reserve increared twenty-six millions, the loans in the same period this year have expanded eighteen millions, while the excess cash shows a gain of twenty millions, Thus, while the supply is in excess of the demand, the latter is immeasurably more pronounced than at the beginning of last year. It is difficult to see, however, where the hope of much firmer money markets finds foundation. If interest rates go beyond a defined line, gold imports must follow. Only that the exchange situation is now under strong control, some interesting developments in the way of unseasonable international transference might be possible.

In the way of unseasonable international transference might be possible.

Evening Post's London financial cablegram: Americans were dull here today in response to New York prices, but the close was above the lowest. Gold is in good demand. Of 600,009 pounds of gold, in bars and sovereigns from the Cape, 100,000 sovereigns has gone to the Bank of England, 400,000 in bars to the continent, and 100,000 pounds to India. The latter is not an exchange operation.

CHICAGO-Wheat to-day felt heavy liquidation which was done near the close of yesterday's session and actlower. No attempt was made to do anything in January. Corn and oats very heavy and declined 4c lower. Provisions, were firm without much trading

Wheat showed some strength at the

Wheat showed some strength at the opening, principally because Liverpool had responded fairly well to yesterday's advance here. Holders of lines already heavy were good bidders at the start, which was at 97½@97½c for May, an advance of ½@96c. A good deal was for sale at those prices, but the selling did not depress prices lower than 97c and shortly after a general buying movement eet in which carried the price up to 98c. That advance, however, raised a short selling breeze of such strength that in half an hour the advance had melted away, the declining not stopping until May was down to 965¢c. The heavy dumping of long lines late yesterday made many traders afraid to risk their many in wheat at prices above 97c scale pared with 3,926,000 bushels the previous and 215,000 bushels the ponding week of last year. Chicago rewere contract. Minneapolis and Duluth receipts were 320 cars against 358 a week ago and 189 last year. The total receipts at western primary markets were 324,000 pushels, against 205,000 bushels the year

busnels, against 205,000 busnels the year before.

The day's clearances from Atlantic ports were again heavy, amounting in wheat and flour to 505,000 bushels. This latter item injected temporary strength into the market, May recovering to 573, 677½c, but it soon fell back again under renewal offerings and to a lower level than before, 96%c being touched before the reaction came. Shortly before the close the market was given support, Leiter brokers being credited with good buying at the bottom prices, and May advanced to 96%c, where it closed. July was relatively heavier than May. It opened at about 56% to 58°c, and the latter was the highest reached all day. It sold as low as 86c and closed at 86%c, a loss of ½c.

Corn was barely steady at a slight decline from yesterday's price. The early decline in wheat started moderate liquidation in corn and a decline ensued, which was not recovered. Scaboard demand was light and country offerings were said to be increasing. May ranged from 29%c to 29% e192%c and closed ½c lower at 29%c.

Oate were firm at the start, with good commission house buying and New York demand. Prices held well for a time, but broke later under heavy liquidation by a firm which has been unloading for several days. Talk of cutting prevented the market declining more than it did. May ranged from 24% @21½c to 23% @21c and closed ½c lower at 24@21½c.

Very little was done in provisions and prices kept within an exceptionally narrow range. There were moderate selling of stuff already showing good before.

The day's clearances from Atlantic

Very little was done in provisions and prices kept within an exceptionally narrow range. There were moderate selling of stuff already showing good profits, but offerings were readily absorbed. Trade was principally of a scalping nature. At the close May pork was unchanged at \$10.00; May lard unchanged at \$4.87½.04.90, and May ribs unchanged at \$4.22½.

Betimated receipts Monday: Wheat 55 cars; corn 250 cars; oats 250 cars; hogs 40.000 head.

Dry Goods.

NEW YORK—Conditions favorable to more extensive trade are shown in the dry goods market at the close of the week's trading. The disposition of buyers is more in the line of free purchases. The returns for the week have been partially satisfactory. In cotton goods lines there has been but slight increases in the sales, and this has been due to local causes in some sections. But there has been a noteworthy tions. But there has been a noteworthy firmness in all lines of staple goods, with prints in fair, steady demand. There have been some adjustments in the price of American indigoes, but iside from there there are no quotable aside from these there are no quotate changes in the price situation in any class of goods. Jobbers, locally, have had a week which aggregated better than last week. Reports from out of town jobbing centers show that the interest taken by retailers in the market is nother slight our fleeting. is neither slight nor fleeting.

NEW YORK—The weekly bank state-ment shows the collowing changes; Sur-plus reserve, increase, \$4,334,250; loan,inplus reserve, increase, 34,334,250; loan,increase, 23,235,500; speele, increase, 23,2445,200; legal tender, increase, \$3,81,900; deposits, increase, \$3,811,400; circulation, decrease, \$124,900. The banks now hold \$35,609,450 in excess of the requirements of the 25 per cent rule.

Metats.

NEW YORK-Pig forn east! south-ern 49 75@11 25; northern 10 50@ 12 00. Copper quiet; lake brokers' 10%c, Lead dull; domestic brokers' \$3 50. Tin plate

Petrolenm. OIL CITY-Credit balances 65; ship-ments 82,546 barrels; runs 109,187 bar-rels.

NEWYORK-Wool steady: fleece 27@ 31c; pulled 15@17c.

THERE are three little things which do more work than any other three little things created—they are the ant, the bee and DeWitt's Little Early Risers, the last being the famoue little pills forstomach and liver troubles. Charles R. Goetze, Market and Twelfth streets; Chatham Sinciair, Forty-sixth and Jacob streets; A. E. Scheele, No. 607 Main street; Exley Bros., Penn and Zanestreets; Bowle & Co., Bridgeport, 4 Piles ! Piles ! Itching Piles.

SYMPTOMS—Moisture; intense tich-ing and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcenter, becoming very sore, SWAYNE'S OINTMENT stops the tiching 2nd bleeding, heals ulceration, and in flast cases removes the tumors. At Crug-gists, or by mall, for 50 cents. Dr.
